

May 29, 1958

Honorable Wayne Morse
Senate Office Building
Washington 25, D. C.

Dear Senator Morse:

I was especially interested in your support of a renewal of the G. I. Bill of Rights during the recent hearings of the Senate Committee on Science and Education for National Defense. I would concur with you that the G. I. Bill was the best financial investment this country has ever made. Furthermore, I believe it furnishes the soundest basis for comprehensive support and improvement of facilities for higher education. I hope you will have time to read the enclosed memorandum which, I think, is congenial to your already expressed views.

Yours sincerely,

Joshua Lederberg
Chairman, Department of Medical Genetics
